RELICS SENT TO EXPOSITION

Figurehead of the Niagara, Which Weighs a Ton, Sent From Boston.

HUGE EAGLE, 10 FEET HIGH

Also Seroll From Dewey's Flagshop and Pictures of Old Warships.

ASHINGTON February 2.-An eagle ten feet high, weighing a ton, and carved Yard, will be boxed up this week and sent to the Jamestown Exposition. This Captain Perry's flagship, "Ningara," when the American squadron went to Japan in 1855, It was built for the Niagara, and not one of the wooden ships of the American Navy has ever had a more artistic or massive figurehead than this. To make it fit the ships bow it was found necessary to remove a part of the bird's back, but this has been replaced and the whole has been painted an appropriate color. The Navy Department has promised the Boston Navy-Yard that their much-prized relic shall be returned to them at the close of the Jamestown Exposition.

be returned to them at the close of the Jamestown Exposition.

Another relic, to be exhibited at the Jamestown Exposition, also from the Boston Navy-Yard, is the steel scroil removed from the stern of the Olympia, the flagship of Admiral Dewey, when he won his famous victory in Manila Bay.

Among the other mementos sent to the Jamestown Exposition are pictures of the Constitution, Niagara, Susquehanna, of two British warsings laying the Atlantic cable, a model of the first dry-dock and the old ship's bell from the Constitution.

ED GEERS THE DEAN OF TROTTING

Has Driven Twenty-One Horses to a 2:10 or Better

POUGHKEEPSIE, N. T., February 2 -Ed. Geers, the dean of the trotting horse drivers, has guided twenty-one trotters to records of 2:10 or better The speedlest of these was The Abbott, 2:031-4. Geer's record more than doubles that of any other driver. John Dickserson and Scott Hudson John Dickserson and Scott Hudson have each driven ten horses in 2:10 or hetter. Alta McDonald has eight to his credit, including Sweet Marie, 2:02, and Major Delmar, 1:59 3-4. Myron F. McHenry and Henry Tites follow, with six each, and then comes Billy Andrews, Charles De Ryder, Andy McDowell and George Saunders, with five each. Budd Dohle, who marked Nancy Hanks in 2:04 in 1892, and gave Dexter his record of 2:17 many years before, drove only four trotters to their best 2:10 records.

W. Bair, who drove Maud S. to W. W. Bair, who drove Maud S. to her championship record of 2:083-4 in 1885, never had another fast one, but Ed. Bither, who drove Jay-Eye-See in 2:10 in 1884, being the first man to ride that fast behind a trotter, later marked Kremlin in 2:073-4. Millard Saunders, who gave Lou Dillon her mark of 1:581-2, also marked Auzella, Tom Atworthy and Janice. Emerson E. McCargo has marked two-Wentworth and Czarina Dawson.

MRS. ASTOR MAY GIVE TROPHY

Mrs. Hillyard Offers to Chaperon English Women for Newport Match.

NEWPORT, R. I., February 2.-That the United States National Lawn Tennis Association has let it be known in England that this country would again challenge this year for the International Challenge Cup was indicated recently by one of the experts who had received from London certification of the appointment made by the English Association to direct the international matches. In addition, the Englishmen have appointed an Fmergency Committee so that all cases which arise, which need immediate decision may be dealt with officially. The international match committee is remarkable in that it is composed of Britons who are actively engaged in playing the gains, although it is regarded as significant that neither of the Doherty brothers are placed on the committee, but H. L. Donerty heads the emergency committee.

The fact that Captain W. H. Collins is chairman of the international match committee is looked upon by the experts here as evidence that the English look forward to hard matches with the Americans this year, as he is the most experienced of the Internation Cup managers, and headed the team which won the cup in this country. The other members of the committee are S. A. E. Hickson, George R. Newburn, George H. W. Hillyard, A. L. Macfie, A. W. Blake, R. J. McNair, A. Sterry, A. L. Griffith, J. M. Flavelle, A. D. Frebole, and A. C. Bentley. This committee will have full power to arrange the details of the international competition.

Already the members of the executive committee of the United States National Lawn Tennis Association have sounded some of the most prominent of their making the trip to the English courts. The idea of aguin raising the funds necessary to defray the expenses of the team by subscription is not so popularly regarded as last year.

As the women players of this country, nor for that matter England, have any national organization of their own the trophy will necessarily be offered through land organization of their own the trophy will necessarily be offered through the national governing body, Mrs. John Jacob Astor may personally provide the trophy. The English women, as it is known, are only too ready to visit this lenge this year for the International Challenge Cup was indicated recently by

the national governing body, Mrs. John Jacob Astor may personally provide the trophy. The English women, as it is known, are only too ready to visit this country, and both Mr. and Mrs. George W. Hillyard, who are leaders in English tennis, have declared their willingness to chaporon the women who would form the English team for the matches at Newport or Tuxedo.

BAKER FOR ENGLAND. Australian Amateur Boxer Seeks

New Fields for Conquest. MELBOURNE, February 2.—R. L. Baker, the amateur middleweight boxing champion of Australasia, has left for England, to take part in the forth-coming amateur boxing championships. Baker is a fine all-round athlete, as he has also shown his powers at rowing, swimming and football. He is also the heavyweight boxing champion of New South Wales, so it is apparent that he can give weight away when the occasion necessitates. Amateur sportsmen in New South Wales decided to be represented at the English championships, and a "whip round" among the leading sporting bodies produced the sum necessary for Baker to make the trip. ng champion of Australasia, has lef-

Bad Symptoms.

The woman who has periodical head-aches, backache, sees imaginary dark spots or specks floating or dancing before her eyes, has gnawing distress or heavy full feeling hatomach, faint spells, dragging-down fulling in lower abdominal or pelvic region, easily startled or excited, irregular or paintul periods, with or without puly caterin, is suffering from weakings and ferangements that should have extry attention. Not all of above symptoms are likely to be present in any case at one line.

Neglocted or badly treated and such eases often run into maindies which demand the surgeor's knills if they do not result fatally.

No medicine extant has such a long and numerous recome of cures in such a strong professions independent of cures in such a strong professions independent of surgeor in the list of the surgeor's best ingredient known to medical science for the cure of woman's peculiar aliments enter into its composition. No alcohol, harmful, or habit-forming drug is to be found in the list of its ingredients printed on each bottle-wrapper and attested under oath. In any condition of the female system, Dr. Pierce's Favorite Prescription can do only good—never harm. Its whole effect is to strengthen, invigorate and regulate the whole female system and especially the pelvic organs. When these are deranged in function or affected by disease, the stomach and other organs of digestion become sympathetically deranged, the nerves are weakened, and a long list of bad, unpleasant symptoms follow. Too much must net be expected of this "Favorite Prescription." It will not perform miracles; will not cure tumors—no medicine will. It will often prevene them, if taken in time, and thus the operating take and the surgeon's knife may be avoided.

one, oo.

Massive in size and imposing in design, the new building will be a notable departure from the usual style of sky-scraper. The architectural treatment leaves a deep recess in the face of the building, thus separating it into two wings, each of which rises to a height of twenty-five stories. The main structure, thirty-two stories high, with its ornate gables, will be a picturesque ornament to the sky line.

The feature of the interior will be an arcade extending 304 feet through the

ture. The total weight of the building will be \$6,000 tons, and some of the steel columns and girders will weigh more than 200,000 pounds each. Every inch of steel will be encased in hollow tile bricks to protect it from corrosion or fire. Flooring and partitions will be of porous terra cotta, so that in case fire ever breaks out the thoroughly fireproof qualities of the building will save it from damage. This combination of steel and hollow tile enabled the big skyserapers of San Francisco to pass successfully through the greatest conflagration of modern times.

That American architects and builders look upon fire as the greatest menace to the safety of the big structures they put up is shown by their precautions against the "red plague." In the City Investing building more than 2,60,600 square feet of hollow tile will be used to make it absolutely fireproof. It is believed that because of this provision the world's biggest office building will be a striking example of that type of modern sky-scraper construction which engineers declare is practically indestructible.

EASTERN CREWS INVADE THE WEST

University of Chicago Still Smarting at Defeat of Last Year.

NEW YORK, February 2.-The probable invasion of the west by four of the strongest Eastern collegiate aquatic teams during the Easter recess, appears to have aroused considerable activity among the swimmers of the universities of that section. Never before has so much interest been taken in this sport, and the squad now at work in the University of Chicago tank is the largest ever seen at the Maroon institution. Last year's men are smarting still at the remembrance of that crushing defeat administered by the Yale contingent, and they are preparing to prevent a repetition of it if they can, The teams are undoubtedly stronger than those of 1966, and though they may be unable to take into camp the veteran organizations that the East will send out, they will at least make a good showing. invasion of the west by four of the least make a good showing.

Electric Road Extended.

(Special to The Times-Dispatch.)
LYNCHBURG, VA., February 2.—An effort is being made by property owners in Bedford county to accure the extension of the system of the local street railway system to a point on the Tidewater Railway, in Bedford county twenty-five miles from Lynchburg. The management of the Lynchburg Traction Company has been interviewed by the promoters of the extension, and, it is understood, is willing to meet the people of the county who are interested half way. The property owners have gone so fir as to have a number donate the right of way for the proposed line through their farms. Others will give ties and do grading in order to attract the road. If built, the road would pass through rich portlops of Campbell and Bedford counties, and would be an excellent feeder to Lynchburg.
